

Terms of Reference for the Global Diabetes Compact Forum

The Global Diabetes Compact Forum (the Forum) is being created by the WHO to share and disseminate ideas, information and views that help advocate for the vision the Global Diabetes Compact, namely: a world where the risk of diabetes is reduced and where all people who are diagnosed with diabetes have access to equitable, comprehensive, affordable and quality treatment and care; and encourage demand and additional resources for diabetes care, including through major advocacy events. Collaboration and cooperation between Forum members and the WHO are key purposes of the Forum.

Within the Forum, ideas, information, and views can be exchanged between the WHO and members, as well between members. By joining the Forum, members agree to advocate for and work towards the vision of the Global Diabetes Compact.

The Global Diabetes Compact is itself based on the views and aspirations of WHO Member States, as expressed in Resolution WHA74.4
